

§ 108A-147.11. Health advancement reconciliation adjustment component.

(a) The health advancement reconciliation adjustment component is a positive or negative dollar amount equal to the actual nonfederal expenditures for the quarter that is two quarters prior to the current quarter minus the sum of the following specified amounts:

- (1) The presumptive service cost component calculated under G.S. 108A-147.5 for the quarter that is two quarters prior to the current quarter.
- (2) The positive or negative gross premiums tax offset amount calculated under G.S. 108A-147.12(b).
- (3) The HASP health advancement component calculated under G.S. 108A-147.6 for the quarter that is two quarters prior to the current quarter.

(b) The IGT share of the reconciliation adjustment component is a positive or negative dollar amount that is calculated by multiplying the health advancement reconciliation adjustment component calculated under subsection (a) of this section by the share of public hospital costs calculated under subsection (c) of this section.

(c) The share of public hospital costs is calculated by adding total hospital costs for the UNC Health Care System, total hospital costs for the primary affiliated teaching hospital for the East Carolina University Brody School of Medicine, and sixty percent (60%) of the total hospital costs for all public acute care hospitals and dividing that sum by the total hospital costs for all acute care hospitals except for critical access hospitals and rural emergency hospitals. (2023-7, s. 1.6(b); 2024-28, s. 5.3(h).)
