

§ 130A-221.1. Coordination of diabetes programs.

(a) The Division of Health Benefits and the Diabetes Prevention and Control Branch of the Division of Public Health, within the Department of Health and Human Services; in addition to the State Health Plan Division within the Department of State Treasurer; shall work collaboratively to each develop plans to reduce the incidence of diabetes, to improve diabetes care, and to control the complications associated with diabetes. Each entity's plans shall be tailored to the population the entity serves and must establish measurable goals and objectives.

(b) Repealed by Session Laws 2020-78, s. 4B.1(b), effective July 1, 2020. (2013-192, s. 1; 2014-100, s. 12E.7; 2019-81, s. 15(a); 2020-78, s. 4B.1(b).)
