

§ 143B-135.148. Types of scenic rivers.

The following types of rivers are eligible for inclusion in the North Carolina natural and scenic rivers system:

Class I. Natural river areas. Those free-flowing rivers or segments of rivers and adjacent lands existing in a natural condition. Those rivers or segments of rivers that are free of man-made impoundments and generally inaccessible except by trail, with the lands within the boundaries essentially primitive and the waters essentially unpolluted. These represent vestiges of primitive America.

Class II. Scenic river areas. Those rivers or segments of rivers that are largely free of impoundments, with the lands within the boundaries largely primitive and largely undeveloped, but accessible in places by roads.

Class III. Recreational river areas. Those rivers or segments of rivers that offer outstanding recreation and scenic values and that are largely free of impoundments. They may have some development along their shorelines and have more extensive public access than natural or scenic river segments. Recreational river segments may also link two or more natural and/or scenic river segments to provide a contiguous designated river area. No provision of this section shall interfere with flood control measures; provided that recreational river users can continue to travel the river. (1971, c. 1167, s. 2; 1989, c. 752, s. 156(a); 2015-241, s. 14.30(f).)
