

**§ 62-82. Special procedure on application for certificate for generating facility; appeal from award order.**

(a) Notice of Application for Certificate for Generating Facility; Hearing; Briefs and Oral Arguments. – Whenever there is filed with the Commission an application for a certificate of public convenience and necessity for the construction of a facility for the generation of electricity under G.S. 62-110.1, the Commission shall require the applicant to publish a notice thereof once a week for four successive weeks in a newspaper of general circulation in the county where such facility is proposed to be constructed and thereafter the Commission upon complaint shall, or upon its own initiative may, upon reasonable notice, enter upon a hearing to determine whether such certificate shall be awarded. Any such hearing must be commenced by the Commission not later than three months after the filing of such application, and the procedure for rendering decisions therein shall be given priority over all other cases on the Commission's calendar of hearings and decisions, except rate proceedings referred to in G.S. 62-81. Such applications shall be heard as provided in G.S. 62-60.1, and the Commission shall, upon request of the applicant, furnish a transcript of evidence and testimony submitted by the end of the second business day after the taking of each day of testimony. The Commission or panel shall require that briefs and oral arguments in such cases be submitted within 30 days after the conclusion of the hearing, and the Commission or panel shall render its decision in such cases within 60 days after submission of such briefs and arguments. If the Commission or panel does not, upon its own initiative, order a hearing and does not receive a complaint within 10 days after the last day of publication of the notice, the Commission or panel shall enter an order awarding the certificate.

(b) Compensation for Damages Sustained by Appeal from Award of Certificate under G.S. 62-110.1; Bond Prerequisite to Appeal. – Any party or parties opposing, and appealing from, an order of the Commission which awards a certificate under G.S. 62-110.1 shall be obligated to recompense the party to whom the certificate is awarded, if such award is affirmed upon appeal, for the damages, if any, which such party sustains by reason of the delay in beginning the construction of the facility which is occasioned by the appeal, such damages to be measured by the increase in the cost of such generating facility (excluding legal fees, court costs, and other expenses incurred in connection with the appeal). No appeal from any order of the Commission which awards any such certificate may be taken by any party opposing such award unless, within the time limit for filing notice of appeal as provided for in G.S. 62-90, such party shall have filed with the Commission a bond with sureties approved by the Commission, or an undertaking approved by the Commission, in such amount as the Commission determines will be reasonably sufficient to discharge the obligation hereinabove imposed upon such appealing party. The Commission may, when there are two or more such appealing parties, permit them to file a joint bond or undertaking. If the award order of the Commission is affirmed on appeal, the Commission shall determine the amount, if any, of damages sustained by the party to whom the certificate was awarded, and shall issue appropriate orders to assure that such damages be paid and, if necessary, that the bond or undertaking be enforced.
