- (2) The temporary dwelling meets minimum habitability and safety standards applicable to that dwelling.
- (3) The temporary dwelling has access to a source of power and meets applicable sanitary conditions.
- (4) The temporary dwelling will be available for periodic inspections consistent with this Article to verify ongoing compliance with the conditions imposed under this section.
- (5) The subject parcel must have permitted driveway access installed.

(b) Upon payment of a reasonable fee, a county shall issue a permit for the use of a temporary dwelling meeting the criteria in this section. A county may require that the subject parcel be at least 1 acre in size. A county may require evidence sufficient to demonstrate that financing has been secured for the permanent residential dwelling construction. A county may require biennial renewal of the temporary dwelling permit and may also reasonably limit the duration of the temporary dwelling permit to the issuance of a certificate of occupancy, certificate of compliance, or temporary certificate pursuant to G.S. 160D-1116. A county may limit the issuance of a temporary dwelling permit to one active permit per subject parcel. A county may revoke a temporary dwelling permit if the building permit issued for the permanent residential dwelling has been revoked or has expired or if the temporary dwelling fails to meet the criteria imposed prior to the issuance of the temporary permit.
