

NORTH CAROLINA GENERAL ASSEMBLY

2025 Session

Legislative Incarceration Fiscal Note

Short Title: NC Digital Asset and Stablecoin Act.
Bill Number: House Bill 1029 (First Edition)
Sponsor(s): Rep. Chesser, Rep. Willis, Rep. Ross, and Rep. Schietzelt

FISCAL IMPACT SUMMARY

Criminal offenses are classified as misdemeanors (Class 3 as the lowest and Class A1 as the highest) and felonies (Class I to Class A). There are three types of legislative changes to offenses that may result in a fiscal impact to the State’s criminal justice system: creating a new offense, changing the class of an existing offense, or changing the scope of an existing offense.

This proposed legislation would create a new Class 1 Misdemeanor. Because this is a new charge, there is no data to predict how many individuals may be charged or convicted. **Therefore, Fiscal Research is unable to project the fiscal impact** of the proposed legislation on the criminal justice system.

Each additional person charged under the proposed offenses will have a cost to the judicial system and each additional person convicted will have a cost to the correction system. The **cost of one charge and conviction** is listed in the table below, along with the percent of cases that incur those costs at that offense level.

Cost of One Charge and Conviction								
Offense Class	Prosecution and Defense		Active Sentence			Suspended Sentence		
	Admin. Office of the Courts	Indigent Defense Services	DAC - Confinement		DAC - Post-Release Supervision	DAC - Probation		
Misdemeanor	Cost	Cost	Rate	Cost	Cost	Rate	Cost	Length (Mo.)
1	\$346	\$254	Active sentences for misdemeanor convictions are served in County jail.		Misdemeanants do not receive PRS.	61%	\$3,931	14

Note: Court costs reflect the average cost per disposition. Costs for active sentences, probation, and post-release supervision reflect the total cost of the sentence or supervision period. Costs to the Statewide Misdemeanant Confinement Program (SMCP) only occur for active sentences > 90 days and impaired driving.

FISCAL ANALYSIS

Bill Summary:

The bill creates a new Article 27 in the General Statutes which establishes a framework for licensing, regulation, oversight, and enforcement by the Commissioner of Banks for stablecoin issuers. The new proposed G.S. 53-469 would create a new Class 1 misdemeanor for knowingly and willingly violating any provision of Article 27 for which a penalty is not specifically provided. The proposed Article 27 does not contain any specific penalties, making all potential violations a Class 1 misdemeanor.

Because this is a new offense, there is no historic data available for cost projections, and as such **Fiscal Research is unable to provide any cost projections for this bill.**

Capital Expenses

Capital costs emerge when prison bed demand exceeds capacity. Based on the most recent prison population and bed capacity projections from the Sentencing and Policy Advisory Commission (SPAC), the State will have sufficient prison beds available beyond the five-year fiscal note horizon. Therefore, Fiscal Research anticipates there will be **no additional prison capital requirements** as a result of this proposed legislation.

Operating Expenses

The table in the Fiscal Impact Summary lists the costs specific to the charge or charges included in this proposal.

TECHNICAL CONSIDERATIONS

- Offense changes are typically effective on December 1. FRD assumes that costs incurred in the first year to the judicial and correction systems would be less than annualized costs due to lag time in charges and convictions.
- This estimate assumes that expanding existing or creating new criminal offenses produces no deterrent or incapacitative effect on crime rates. Likewise, FRD assumes no deterrent effects for any modifications to criminal penalties. The estimates in this Incarceration Note make no assumptions about the larger impact on crime rates or costs to society or the State.

- This estimate makes no prediction regarding the likelihood that a prosecutor will charge an offense based on any proposed increases or decreases to the offense class level. This estimate also does not attempt to predict the impact of offense class changes on plea negotiations. FRD assumes the proposed offense class is charged and convicted at the same rate as the prior level.
- For reference, Appendix A to this document shows the costs per charge/conviction for each class of offense in North Carolina.

LEGISLATIVE FISCAL NOTE – PURPOSE AND LIMITATIONS

This document is an official fiscal analysis prepared pursuant to Chapter 120 of the General Statutes and rules adopted by the Senate and House of Representatives. The estimates in this analysis are based on the data, assumptions, and methodology described in the Fiscal Analysis and Technical Consideration sections of this document. This document only addresses sections of the bill that have projected direct fiscal impacts on State or local governments and does not address sections that have no projected fiscal impacts.
