2025 Session

## Legislative Incarceration Fiscal Note

**Short Title:** Dept. of Health and Human Services Revisions.-AB  
**Bill Number:** House Bill 576 (Second Edition)  
**Sponsor(s):**

### FISCAL IMPACT SUMMARY

Criminal offenses are classified as misdemeanors (Class 3 as the lowest and Class A1 as the highest) and felonies (Class I to Class A). There are three types of legislative changes to offenses that may result in a fiscal impact to the State's criminal justice system: creating a new offense, changing the class of an existing offense, or changing the scope of an existing offense.

This proposed legislation would enhance the offense classification for G.S. 131D-2.5 **from a Class 3 misdemeanor to a Class H felony**. However, this existing offense does not have a code in the Administrative Office of the Courts (AOC) data system, which indicates that it is charged infrequently and that there is no data available on this offense. **Therefore, Fiscal Research is unable to project the fiscal impact** of the proposed legislation on the criminal justice system.

Each additional person charged under the proposed offenses will have a cost to the judicial system and each additional person convicted will have a cost to the correction system. The **cost of one charge and conviction** is listed in the table below, along with the percentage of cases that incur those costs at that offense level.

Cost of One Charge and Conviction										
	Prosecution and Defense		Active Sentence					Suspended Sentence		
Offense Class	Admin. Office of the Courts	Indigent Defense Services	DAC - Confinement			DAC - Post-Release Supervision (PRS)		DAC - Probation		
Felony	Cost	Cost	Rate	Cost	Length (Mo.)	Cost	Length (Mo.)	Rate	Cost	Length (Mo.)
▲ 3 to H	\$1,237	\$307	36%	\$26,937	10	\$2,527	9	-18%	\$3,089	11
Note: Court costs reflect the average cost per disposition. Costs for active sentences, probation, and post-release supervision reflect the total cost of the sentence or supervision period. Costs to the Statewide Misdemeanant Confinement Program (SMCP) only occur for active sentences > 90 days and impaired driving. The triangle symbols (▲) represent change, plus and minus ( +/- ) symbols reflect the increase or decrease in cost or time from the current to proposed changes in charge levels.

## FISCAL ANALYSIS

**Section 3.2** of the bill amends Chapter 131D – *Inspection and Licensing of Facilities* – by reclassifying an existing offense. Currently, under G.S. 131D-2.5 subsection (b), it is a violation for a person or corporation who establishes, conducts, manages, or operates multiunit housing with service programs and is subject to registration to fail to register with the Department of Health and Human Services (DHHS). **This proposed legislation raises the offense class for this violation from a Class 3 misdemeanor punishable by fine only to a Class H felony.**

This classification enhancement will likely have cost impacts on both the judicial and correctional systems, as Class H felonies require trial, confinement, and parole time that fine-only Class 3 misdemeanors do not. However, because AOC does not track offenses for violating G.S. 131D-2.5, there is no historic data available for cost projections. The lack of an AOC offense code is some indication that this offense is infrequently charged and/or infrequently results in convictions, but nonetheless, **Fiscal Research is unable to provide any cost projections for this bill.**

### Capital Expenses

Capital costs emerge when prison bed demand exceeds capacity. Based on the most recent prison population and bed capacity projections from the Sentencing and Policy Advisory Commission (SPAC), the State will have sufficient prison beds available beyond the five-year fiscal note horizon. Therefore, Fiscal Research anticipates there will be **no additional prison capital requirements** as a result of this proposed legislation.

### Operating Expenses

The following section explains the source of potential costs for State agencies because of this proposed legislation. The table in the Fiscal Impact Summary lists the costs specific to the charge or charges included in this proposal.

## **TECHNICAL CONSIDERATIONS**

---

- Offense changes are typically effective on December 1. FRD assumes that costs incurred in the first year to the judicial and correction systems would be less than annualized costs due to lag time in charges and convictions.
- This estimate assumes that expanding existing or creating new criminal offenses produces no deterrent or incapacitative effect on crime rates. Likewise, FRD assumes no deterrent effects for any modifications to criminal penalties. The estimates in this Incarceration Note make no assumptions about the larger impact on crime rates or costs to society or the State.
- This estimate makes no prediction regarding the likelihood that a prosecutor will charge an offense based on any proposed increases or decreases to the offense class level. This estimate also does not attempt to predict the impact of offense class changes on plea negotiations. FRD assumes the proposed offense class is charged and convicted at the same rate as the prior level.
- For reference, Appendix A to this document shows the costs per charge/conviction for each class of offense in North Carolina.

## **LEGISLATIVE FISCAL NOTE – PURPOSE AND LIMITATIONS**

---

This document is an official fiscal analysis prepared pursuant to Chapter 120 of the General Statutes and rules adopted by the Senate and House of Representatives. The estimates in this analysis are based on the data, assumptions, and methodology described in the Fiscal Analysis section of this document. This document only addresses sections of the bill that have projected direct fiscal impacts on State or local governments and does not address sections that have no projected fiscal impacts.
